ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Auction Sales Are Conducted in the Following

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

The coins will be on display the day of the sale at our offices and can be seen by appointment any day prior to the sale.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

YOU WILL WANT A PRICE LIST OF THIS SALE

TO KNOW WHAT COINS ARE BRINGING

PRICE LIST OF SALE \$1.00

IS THIS YOUR FIRST AUCTION CATALOG?

Proof coins, branch mints 1892-1934 unc., currency and commemoratives seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of the results obtained in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** in the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even the auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING THESE
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION.**

BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN.

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, compliments (yes we receive some now and then), we want to hear them. Having cataloged over one hundred ninety successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 6¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the **bid sheet**. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

OBSOLETE U. S. COINAGES TRADE DOLLARS

There has been a sharp increase in interest in this, the only demonetized U. S. coin. When the fact is considered that the bulk of the issue was redeemed and melted (unlike other issues) and that the great majority of the remaining ones were shipped to the Orient (where they were circulated, chop marked, etc.) then we must come to the conclusion that this series is somewhat undervalued in keeping with the actual small supply available.

TWENTY CENTS

Only issued in 1875 and 1876 for circulation when its similarity to the quarter caused too much confusion to be practical. The 1877 and 1878 were struck only in proof for collectors; and when the denomination was abolished by law, the unsold 1877 and 1878 were melted. Actually, the 1877 and 1878 are much scarcer than the mint figures indicate.

HALF DIMES

Issued from 1792 thru 1873. The first U. S. silver coin issued for circulation (Washington makes mention of the 1792 half disme being put into circulation). Discontinued in 1873 since the 5c "nickel" fulfilled the necessity for this denomination. After being dormant for years, this series has come to life with a "bang" and many are finally revealing their true rarity. Should prove to be a good investment at present-day prices judging from the new records being set.

THREE CENTS SILVER

The smallest U. S. coin issued from 1851-1873. Since the three cent nickel was more practical when it was issued in 1865, the silver ones were discontinued in 1873. Actually, the last year the silver was struck for circulation was 1862 as only proofs for collectors were struck thereafter.

ELEVEN DIFFERENT CHOICE 1793 LARGE CENTS, ETC.

We note the large cents have finally "arrived" both as to demand and rise in value. "Old Timers" who have been used to seeing them rise only 5% to 10% a year in valuation are finding it very difficult to adjust their thinking to the 20% to 30% rise in value taking place today. Heretofore, when they missed an opportunity to acquire a particularly choice or rare specimen they felt that when another specimen became available, it would not bring much more than the one they missed. THIS HAS BEEN DRASTICALLY CHANGED. Now, by the time another choice or rare specimen becomes available, it will bring double to five times more. The present interest stems with the publication of Dr. Sheldon's monumental work making it fairly easy to identify varieties. With the pending publication of his supplement, "Large Cents Ten Years Later," we note a marked increase in interest. Double or triple the demand without increasing the supply (which is what has happened) and see what it does to values. LARGE CENTS ARE SUBSTANTIALLY UNDERVALUED IN COMPARISON WITH THE SMALL SUPPLY OF CHOICE SPECIMENS AVAILABLE AND SHOULD PROVE TO BE AN EXCELLENT INVESTMENT AT PRESENT DAY PRICES. Every year we have collectors come to us saying, "I wish I had listened to your analysis of the market and acted accordingly. Our answer is, "Forget the past, what will you say a year from now?" We can bring the results of our research to your attention, but only you can determine if you will act on this information.

DOUBLE EAGLES (\$20 GOLD)

We have noticed a decided increase in demand for this series during the past few months. Evidently collectors have finally realized that "gold is the cheapest thing to collect" from the point of view of the very small premium over actual gold value. After all, with gold at \$35 per ounce, how much premium is involved for a \$20?

HALF EAGLES (\$5 GOLD)

After careful study, we have come to the conclusion that the early half eagles prior to 1834 are, as a group, the most undervalued of the gold series. Just check how few have been offered during the past year. That, together with the increasing demand, must inevitably be reflected in a marked increase in value during the immediate future. We look forward with interest the appearance of

the new catalog to see if it will reflect this market condition. While we believe it is a dealer's duty to constantly advise his clientele of market conditions, it is up to each collector whether he chooses to wisely use this information or believe, "He has an axe to grind — I'll ignore what he says." Sure, we have "an axe to grind." How can we convert "collectors" into "numismatists" unless we give them the benefit of our research and knowledge. A "numismatist" is a more valued client, as he knows what he is doing instead of "just drifting" and collecting hap-hazardly.

The popularity of this short and elusive series continues unabated with new records being set nearly every time offered. IN POINT OF RARITY, THE MOST UNDERVALUED SERIES. GOLD DOLLARS (\$1)

Since there is a reasonable chance of completing the series, many collectors are attempting to do so. Naturally, this has resulted in a sharp increase in prices for the scarcer pieces and a moderate rise for the more readily available ones. Should prove satisfying, both numismatically and financially.
